UTERINE FIBROID

Updated Surgical Management, Tips & Tricks, and Debate

Course Directors:

Dr. Shaima Al Suwaidi
UAE

Pr. Arnaud Wattiez
France

 **May 14-15, 2021**

 **InterContinental Hotel,
Dubai Festival City, UAE**

COURSE DESCRIPTION:

Fibroids are a very common uterine Tumor that facing every Gynecologist in daily bases. It can be asymptomatic or symptomatic causing Abnormal uterine bleeding, Pain and infertility. Recently, numerous medical treatments have been proposed to replace the surgery. Unfortunately, the results doesn't always meet our expectations and surgery is still the first therapy for the treatment of the myomas, In addition, new knowledge on the role of myomas in the perturbation of the uterine contractibility and for the embryo complication have slightly changed the indication of myomectomy in infertility. Furthermore, After the dramatic morcellation of a leiomyosarcoma it was necessary to review and change our Practice, but those changes should be done with the light of sciences and not pushed by emotion. The shift back to laparotomy is too harmful for our patients and clear indications and limits should be described. This course will focus on all the new aspects of myomectomy and risk /indication of Power and bag morcellation as well as the most updated technical tips.

WHY ATTEND?:

- All new aspects of myomectomy will be address during this course as well as the most updated technical tips.
- There will be an International speakers
- Hot topics
- Debates
- Hand on
- Live surgeries

RESULT:

- The Participants will be able to comprehend the treatment options for patient with fibroids depending on their symptoms
- The participants will be able to evaluate the diagnostic options and criteria for myomas
- Participant will be able to practice different ways of suturing hystorotomies

OBJECTIVE OF THIS COURSE:

- Indications of Laparoscopic myomectomies based on symptoms/size /location of fibroids
- Prevention of complications in difficult cases.
- Discuss bleeding management techniques
- To discuss best and different ways in suturing hystorotomies
- To discuss different ways of specimen retrieval
- Pros and cons of morcellation
- To clarify our practice and to give clear messages for both doctors and patients on the real risk of power morcellation and the indications of in bag morcellation.

Course Rates: (USD/AED)

(All rates below are 5% VAT exclusive)

\$ 600/DHS 2,210 (ONLINE PASS - Complete Course Package)

\$ 1,250/DHS 4,600 (ONSITE PASS - Complete Course Package with Hands-on Workshop)

Program

Day 1

May 14

Fibroid

Course Faculties:

Pr. Arnaud Wattiez
France

Dr. Shaima Al Suwaidi
UAE

Time (GMT+4)	Title	Faculty
7:30	Live Surgery	Name:
8:30	How the surgical management of fibroids has changed in the last 10 years (Laparotomy Vs. Laparoscopy)	Name:
8:50	The pathogenesis of fibroids	
09:00	Fibroids and infertility - Facts and funtion	
09:30	Ultrasound Imaging in the diagnosis of fibroids and ultrasound classification of myoma	
10:00	The Rule of MRI in the diagnosis of fibroids	
10:30	Preoperative workup and surgical indications for myomectomy: What to do to rule out leiomyosarcoma?	
10:50	COFFEE BREAK	
11:10	Rule of medical treatment in the management of fibroids	
11:40	Live Surgery	Name:
12:40	Preoperative workup and surgical indications for myomectomy: What to do to rule out leiomyosarcoma?	
13:10	LUNCH BREAK	
14:00	Bloodless myomectomy (Clipping, Vasopressin, Oxytocin)
